EDUCATION

Indira Gandhi Delhi Technical University for Women

New Delhi, India

Bachelor of Technology in Electronics & Communication Engineering; CGPA: 9.00/10.0

Aug 2020 – May 2024

EXPERIENCE

Software Engineer

Gurugram, India

Airtel Digital

July 2024 – Present

- Designed and scaled a **high-throughput distributed messaging platform** handling **10M+ SMS/day** with **99.9% availability**, serving millions through reliable and fault-tolerant processing.
- Developed **Java (Spring Boot)** and Golang microservices, building scalable **REST APIs** and improving throughput, latency, and performance across critical messaging workflows.
- Designed **event-driven microservices** leveraging **Kafka-based asynchronous processing** to improve scalability, resiliency, and high-volume message delivery.
- Implemented **end-to-end observability** using Grafana, Kibana, and ELK Stack, reducing production debugging time and **MTTR by 60%**.
- Leveraged **GitHub Copilot** and AI-assisted development workflows to accelerate feature implementation, debugging, and code reviews across Java and Golang services.

Software Development Intern

Gurugram, India

American Express

May 2023 – July 2023

- Designed backend systems and **API-driven workflows**, generating **1000+ interactions** and improving onboarding conversion by **25%**.
- Improved performance by **30%** via query optimization, caching, and efficient API and database design.
- Built AI-based automation pipeline using **Flask + Python**, automating **80%** workflows and improving efficiency.
- Collaborated in an **Agile SDLC**, contributing to feature delivery, testing, CI/CD pipelines, and deployment.

PROJECTS

MudraKosh | *Machine Learning, Flask, Firebase, JavaScript, DialogFlow, Twilio API*

- Developed a **production-ready full-stack platform** integrating third-party APIs and intelligent workflows achieving **99.14% accuracy**.
- Top 10 finalist among 4000+ participants** at American Express Makeathon'22 for building an end-to-end solution.

CoWorkNet | *HTML, CSS, JavaScript, RESTful APIs*

- Designed a scalable web platform connecting **1000+ users**, implementing efficient REST APIs and client-server interactions.

Admission Smart Bot | *Machine Learning, Flask, NLTK, CNN*

- Implemented an **NLP-based conversational system** achieving **80% accuracy** for automated query handling.

TECHNICAL SKILLS

Languages: Golang, Java, Python, C++, SQL, JavaScript

Core: DSA, System Design, Distributed Systems, Concurrency & Multithreading, Design Patterns

Backend & Distributed Systems: Microservices, REST APIs, Kafka, RabbitMQ, Spring Boot, Docker, Kubernetes

Databases: PostgreSQL, Redis, MongoDB, Aerospike, MySQL

Monitoring & Reliability: Grafana, Kibana, ELK Stack, SRE, Distributed Tracing, JUnit

AI Engineering & Tools: Prompt Engineering, LLM Applications, RAG, OpenAI API, Gemini API, GitHub Copilot, Claude Code, Cursor, Git

ACHIEVEMENTS

Competitive Programming: Solved **1000+ problems** across LeetCode (**650+**), GFG, CodeChef

Hackathons: **Top 10** – American Express Makeathon'22 (4000+), JP Morgan CFG (Top 2500/32K), Adobe PapyrusNebulae'23 (Top 10%), Cisco WIC'23 (Top 30)

Leadership: **PR Head** – **TNP Cell**; coordinated placements for **500+ students**
